Dear Professor Vinogradov.

I have the great pleasure to inform you that the Royal Swedish Academy of Sciences has decided to invite you as Foreign Member in the class for "Mineralogy, geology and physical geography" (V class) and sincerely hope that you will accept the membership.

Enclosed is the latest edition of the list of members. I also enclose my report of April 1975 on the present activities of the Academy. Unfortunately it is in Swedish, but I hope that you will be able to extract some information. If you accept the membership, would you kindly send the personal data which should be printed in the 1976 edition (see Foreign Members: page 34-52).

I need not say that we very much like to see you at our sessions. The Academy usually has its sessions on the second and the fourth Wednesday of the month; from September to beginning of June (see enclosed program).

I was very glad indeed to see you in Moscow at the splendid festival of Akademia Nauk and I take the opportunity to express my gratitude for the great hospitality of Akademia Nauk during these days.

Looking forward to hearing from you soon.

I am,  
sincerely yours

  
C G Bernhard
